ICGEB International SEMINAR PROGRAMME 2018

Wednesday, 11 July 2018 | 12:00 am | ICGEB Seminar Room, W building | Padriciano, 99, Trieste, ITALY

Philip VAN DAMME

Laboratory for Neurobiology (VIB-KU Leuven
Center for Brain & Disease Research), Leuven,
THE NETHERLANDS

Philip Van Damme is a neurologist at the University Hospital Leuven. He is currently directing the Neuromuscular Reference Center and coordinating the care of ALS and ALS-FTD patients. His research activities focus on translational ALS-FTD research including more basic biological studies to understand the disease pathogenesis in various model systems (performed at the Center for Brain & Disease Research, VIB, Leuven), clinical studies on the genetic causes and biomarkers of the disease, and clinical trials with novel treatments for ALS.

“Disease mechanisms of TDP-43 associated ALS-FTD”

Host: E. Buratti

Registered seminars are available on YouTube, iTunes and ICGEB Podcast at:
