VACANCY NOTICE

1) Research Scientist - 1 position

Research scientist position is available in the ICGEB-Emory Vaccine Centre Lab, Molecular Medicine Group for a DBT sponsored project titled 'Human B cell responses and receptor repertoire in dengue patients'

The project is funded for 2 years. Initially, this position is available for the six months and based on the performance of the candidate can be further extended.

Educational Qualifications:

Essential qualification: PhD with at least three to six years of postdoc experience in the field of cellular and molecular immunology.

Desirable qualification: Candidates with hands-on-experience in flow cytometry, highthroughput cloning from single cells and antibody characterization will be preferred.

2) Research Associate-III - 1 Position

Research Associate III (RA-III) position is available in the ICGEB-Emory Vaccine Centre Lab, Molecular Medicine Group for a DBT sponsored project titled 'Human B cell responses and receptor repertoire in dengue patients'

The project is funded for 2 years. Initially, this position is available for the six months and based on the performance of the candidate can be further extended.

Educational Qualifications:

Essential qualification: PhD with up to 3 years of research experience in the field of virology

Desirable qualification: Candidates with hands-on-experience in Flavivirus/arbo virus research.

Deadline: Interested candidates should submit their updated Curriculum Vitae with a one page description of research experience by **30th April 2019** by email to ICGEB.Emory@gmail.com with **subject line indicating the position the candidate is applying for.**
