

ICGEB CALL FOR A SHORT-TERM FELLOWSHIP
6 MONTHS

A short-term Fellowship is available for 6 months starting tentatively May 2020 in the Laboratory of Molecular Virology of the ICGEB Trieste. The Fellowship is on the external Grant of Regione Friuli Venezia Giulia (Programme INTERREG Italia-Slovenia 2014-2020) for the Project "IMBI: Diagnosi di infezioni protesiche in ortopedia con metodi innovative basati sull'uso di batteriofagi".

The ideal candidate is a highly motivated graduate student with the equivalent of a Master's Degree (Laurea Magistrale) in Life Sciences, and with a strong interest in molecular virology. ready to start working immediately.

The candidate will be involved in assisting senior researchers in WP3.2 activities – development of methods to detect bacteriophages - by engineering both a color-coded and a barcoded reporter system.

Interested candidates are invited to send their CV and references to fellowships@icgeb.org (with email subject INTERREG IMBI JUNIOR) not later than 12th April, 2020.

Trieste, 20th March, 2020

Alessandro Marcello, PhD
Head, Laboratory of Molecular Virology
