

ICGEB/ELETTRA Postdoc Fellowships

ICGEB and Elettra offer competitive **Postdoc** Fellowships in Life Sciences to highly motivated scientists wishing to pursue their studies in a world-class scientific environment.

Application must entail a project **co-supervised by two Group Leaders**, one from the ICGEB and one from Elettra-Sincrotrone Trieste. The research project must involve inter-disciplinary research studies of biological systems via molecular biology (ICGEB) and structural biology that makes use of synchrotron and free electron radiation (Elettra). Please contact an ICGEB or Elettra Group Leader who best fits to your scientific project goals.

Applications are submitted **online** at <https://isg.icgeb.org/auth/login> (*specifying ICGEB/Elettra postdoctoral fellowship application*). Include two letters of acceptance from host laboratories, one from the Group Leader of ICGEB and one from the Group Leader of Elettra.

Fellowships include:

- Participation in a top-class **research programme**
- Access to state-of-the-art **facilities**
- Participation in **ICGEB Meetings and Seminars**
- A competitive **stipend**, travel provision and health insurance

Closing date for application:
31 March 2021
