ICGEB-DBT Workshop

Synthetic Biology of photosynthetic organisms to produce value added products – SynBio22

17-24 June 2022 | New Delhi, INDIA

Organiser:

Shashi Kumar Rhode (ICGEB New Delhi, India)

Contact skrhode@icgeb.res.in

Web <https://www.icgeb.org/synthetic-biology-workshop-2022/>

This scientific workshop will introduce the young students and scientists to some of the most exciting research and developments in the area of synthetic biology of photosynthetic organisms to produce value added products using genome engineering with CRISPR-Cas9, RNAi-post-transcriptional gene silencing and building metabolic pathways through specialized talks and hand-on-training sessions.

Participants

- Attendance is limited to 30 participants
- 15 seats are reserved to Indian participants
- 15 seats will be available for **ICGEB Member State** nationals residing outside of India
- The participants are expected to stay close to ICGEB New Delhi campus for the duration of the workshop

Funding

- Food and lodging costs for selected participants will be covered
- Graduates in advanced biotechnological fields of Algae, Plants or Biological sciences are encouraged to apply from India and Developing Countries
- Interested applicants should provide with the application a one-page current CV along with a paragraph of statement of interest

Online application <https://isg.icgeb.org/auth/login>

Deadline 30 April 2022 for residents outside of India

15 May 2022 for India residents
