VACANCY NOTICE

RA AND SRF POSITION AVAILABLE IN YEAST BIOFUEL GROUP

One Research Associate and one Senior Research Fellow (SRF) Position are available in the Yeast Biofuel group, in the lab of Dr. Naseem A gaur in a DBT sponsored project. The position is available initially for one year with annual extensions based on performance and achieving objectives.

Please note that this is a temporary project position whose duration is only for the tenure of the sanctioned project. The salary will be as per DST norms, based on qualification and experience.

Position- Research Associate

Job description: The selected candidate will be performing Yeast genome editing, genomics, transcriptomics, proteomics, and fermentation for the production of industry-related compounds. Candidate with prior research experience working with Yeast and molecular biology tools and techniques is desirable.

Qualifications: Ph.D. in Molecular Biology, Biotechnology, Life Sciences or, other related field with in-depth experience in various advanced molecular biology techniques.

Desirable qualifications: Experience in Genome engineering, DNA assembly and genome editing using CRISPR/Cas9 Experience is desirable.

Position- Senior Research Fellow

Job description: The selected candidate will be conducting Molecular/Synthetic biology experiments to engineer genome of yeast strains for the production of a commercial product. The candidate will also be responsible for preparing detailed technical reports summarizing the result and for the timely submission of these reports.

Qualifications: M.Sc/ M.Tech, Life Sciences or other related field with experience in molecular biology techniques.

Desirable qualifications: Experience in Metabolic engineering, and genome engineering will be preferred.
