7-11
November

Workshop "Emerging infectious diseases: biology, prevention and treatment"

São Paulo, BRAZIL

Organiser:

Sandra Coccuzzo Sampaio Vessoni (Instituto Butantan, São Paulo, Brazil)

Contact sandra.coccuzzo@butantan.gov.br and rtcalado@fmrp.usp.br
Web <https://www.icgeb.org/emerging-infectious-diseases-workshop-brazil-2022/>

This meeting aims to gather experts in the field of infectious diseases for a broad discussion of state-of-the art and the solutions that basic and applied research show for improved diagnosis and therapy. This topic is an important and relevant topic for the region. Topics will include:

- Epidemiology
- Therapeutics
- "OMICS"
- Vaccines
- Covid-19: epidemiology & genomic surveillance
- Covid-19: vaccines
- Covid-19: treatment & molecular insights
- Molecular and immunology insights in infectious diseases

Participants

- Researchers involved in the field of viruses, cancer, immunology of infectious diseases and platforms for diagnostic improvement
- Poster sessions and short talk selected from abstracts
- Students and junior scientists are welcome to attend

Funding

- Participants are expected to cover their own travel and living costs
- A limited number of grants, covering accommodation and local hospitality of the duration of the Meeting, are available to a selected number of nationals of **ICGEB Member States**
- Limited travel contribution will additionally be available from the local organizers and external sponsors for selected students/junior scientists

Online application and registration <https://isg.icgeb.org/auth/loginn>
Deadline for ICGEB Member States applicants requesting financial support 30 June 2022
Deadline for Registered participants 30 October 2022 - Deadline extended
