Advancing Next Generation Sequencing in South Asian Region: A Residential Workshop for International and Local Attendees

Homagama, SRI LANKA

Organiser:

Sajeewani Bamunu Arachchi Pathirana (Sri Lanka Institute of Biotechnology – SLIBTEC)

Contact slibtec.events@gmail.com

Web <https://www.icgeb.org/advancing-next-generation-sequencing-workshop-sri-lanka-2024/>

The workshop will cover the topics of Next Generation Sequencing (NGS) in advancing the understanding of genomics, metabolomics, deep learning and precision medicine. The workshop will feature both lectures and hands-on practical sessions. This workshop will promote cross disciplinary discussions and collaborations. Topics will include:

- Genomics
- Metabolomics
- Precision medicine
- Deep learning

Participants

- Researchers actively engaged in the field of genomics, genetics, or bioinformatics, and those who have a current research project that could benefit from the use of next-generation sequencing technologies
- Registration Fee: Euro 150

Funding

- A limited number of participants are provided with partial coverage for travel in economy class and accommodation
- Priority will be given for Early Career Scientist who are nationals of **ICGEB Member States** and participants who come from underrepresented groups in the field of genomics, such as women, ethnic minorities

Online application <https://isg.icgeb.org/auth/login>

Deadline 28 February 2024
