COLLABORATIVE RESEARCH GRANT PROGRAMME (CRP) call

ICGEB SPECIAL PROGRAMME with South African HDIs

The International Centre for Genetic Engineering and Biotechnology and the South African Department of Science and Innovation have partnered in a Special Programme to develop and support capacity development in South African Historically Disadvantaged Institutions (HDIs).

The ICGEB invites proposals from Principal Investigators (South African citizens and South African permanent residents), employed at South African HDIs for funding for projects, with an new collaboration with an ICGEB Group Leader, with the goal of promoting collaboration, training of young scientists, and the development of research facilities.

Eligible HDIs:
Durban University of Technology, University of Fort Hare, University of Limpopo, University of Venda, Walter Sisulu University, University of the Western Cape, University of Zululand, Mangosuthu University of Technology, and Sefako Makgatho Health Sciences University.
