Elettra Sincrotrone Trieste

ICGEB/ELETTRA

Short-term Postdoctoral Fellowship at ICGEB Trieste

ICGEB and Elettra Sincrotrone Trieste offer a competitive one-year Postdoctoral Fellowship in Life Sciences to highly motivated scientists from ICGEB Member States wishing to pursue their studies in a world-class scientific environment.

Applications must entail a project co-supervised by two Group Leaders, one from the ICGEB and one from Elettra-Sincrotrone Trieste. The research project must involve inter-disciplinary research studies of biological systems via molecular biology (ICGEB) and state-of-the-art structural, spectroscopic and imaging approaches that makes use of beamlines and laboratories at Elettra synchrotron and FERMI FEL.

Applications need to be submitted online following the same procedure indicated for the ICGEB Arturo Falaschi short-term postdoctoral fellowships

APPLY HERE:

<https://www.icgeb.org/fellowships/arturo-falaschi-short-term-postdoctoral-fellowships-september-2026/>

The Fellowship includes:

Participation in a top-class research programme

Access to state-of-the-art-facilities

Participation in ICGEB Meetings and Seminars

A competitive stipend, travel provision and health insurance

Application Timeline

1 July - 14 August 2026

**FELLOWSHIP EXPRESSION OF
INTEREST**

Please clearly indicate that you are applying for the ICGEB-ELETTRA fellowship in the online form while submitting your Expression of Interest

16-30 September 2026

**FELLOWSHIP FULL
APPLICATION**
